DEDICATION

To all those affected by plastic pollution and to everyone committed to address the plastics crisis.

Global Theological Ethics—Book Series

Series Editors

Jason King, St. Mary's—San Antonio, TX
M. Therese Lysaught, Loyola University Chicago

The Global Theological Ethics book series focuses on works that feature authors from around the world, draw on resources from the traditions of Catholic theological ethics, and attend to concrete issues facing the world today. It advances the *Journal of Moral Theology's* mission of fostering scholarship deeply rooted in traditions of inquiry about the moral life, engaged with contemporary issues, and exploring the interface of Catholic moral theology philosophy, economics, political philosophy, psychology, and more.

This series is sponsored in conjunction with the Catholic Theological Ethics in the World Church. CTEWC recognizes the need to dialogue from and beyond local cultures and to interconnect within a world church. Its global network of scholars, practitioners, and activists fosters cross-cultural, interdisciplinary conversations—via conferences, symposia, and colloquia, both in-person and virtually—about critical issues in theological ethics, shaped by shared visions of hope.

Online versions of the volumes in the *Global Theological Ethics* series are available for free download as chapters at jmt.scholasticahq.com. Paper copies may be purchased from Wipf & Stock. This dual approach reflects the *Journal of Moral Theology's* commitment to the common good as it seeks to make the scholarship of Catholic theological ethicists broadly available, especially across borders. Additionally, you can find the series listed on the CTEWC website at catholicethics.com/book-series/catholic-theological-ethics-series/.

Series Titles

Ethical Challenges in Global Public Health: Climate Change, Pollution, and the Health of the Poor, edited by Philip J. Landrigan and Andrea Vicini, SJ (2021)

15. Declaration: Our Shared Responsibility to End Plastic Pollution, Protect Human Health, and Advance Social Justice for All
Conference Participants 152

Conclusion

16. A Manual for Moral Collectives: Our Shared Responsibility to
End Plastic Pollution, Protect Human Health, and Advance Social
Justice for All

James F. Keenan, SJ..... 158

Acknowledgments

We express our deep gratitude to our many colleagues—at Boston College, across the US, and internationally—who generously shared their passion and expertise in reflecting on the ethical challenges that characterize the plastic crisis and how it affects local and global efforts to promote health. We are grateful that some of their contributions are gathered in this book.

The Boston College community—with its dedicated faculty, students, administrators, and staff, its commitment to science and the humanities, and its longing for social justice—continues to be an inspiring formative context for ethically inspired education, research, and practice in addressing challenging issues in global public health. Boston College has enabled us to engage in examining urgent issues in global public health, identifying and addressing social inequities, striving to promote the common good, advancing justice, and caring for the Earth—our common home. These are complex times that demand determination, ingenuity, and creativity to address plastic pollution together with the many pre-existing and enduring challenges that affect the health of individuals, populations, and of the whole planet. For all these reasons, we are deeply thankful.

This volume continues to rely on and joins diverse academic entities and initiatives at Boston College that foster this ethos and aim at training students and citizens attentive to address ethically and with competence the multiple issues affecting global public health across the planet. In particular, we mention the Institute for the Liberal Arts; the School of Social Work, and particularly Dr. Summer Hawkins, who co-organized the October 2024 conference “Joining Science and Theology to End Plastic Pollution, Protect Health, and Advance Social Justice”; the Gloria L. and Charles I. Clough School of Theology and Ministry; the Schiller Institute for Integrated Science and Society; the Law School; the William F. Connell School of Nursing, with its minor and major in Global Public Health and the Common Good; and, within the Morrissey College of Arts and
